

Toe Nail Trail to Eldorado - 128 miles

This starts out the same as the Menard route, but when Toe Nail Trail hits 190, turn left and go to Eldorado. You can turn right here back to San Angelo, but I'd recommend taking RM 915 to Mertzton, where you can take 67 back to San Angelo. Or, as an option you can turn on RR 853 (Arden Road) and go back that way.

Good starting point: Stripes, 3925 S Bryant Blvd, Head south on Bryant Blvd and take US 277 S exit. Follow 277 to Christoval, In Christoval, take Main St (110) and turn left onto 2084 (Toe Nail Trail). Note that after turning onto 2084, you go one block then 2084 turns right. Follow 2084 till it dead ends at US 190. Turn right (west) onto 190 and follow to Eldorado. You do have the option here of turning right onto US 277 and going north back to San Angelo. This route has you continuing straight past 277 though and following RM 915 till it dead ends at US 67, just south of Mertzton. Turn right on 67 into Mertzton then continue straight (unless you detour through the Sherwood Loop) to San Angelo. If you want to take the Sherwood Loop and curves to the left and then curves again to the right where it becomes Washington Ave. Watch for the Old Sherwood Courthouse on your right. Washington Ave dead ends after a few blocks onto Oak Hill Street, turn left here. This becomes CR 211. Follow 211 till it dead ends back On US 67. Turn right and go into San Angelo.

Fuel available: San Angelo, Christoval, Eldorado, Mertzton
