

# 2018 Jaime Padron Scholarship Award Winner

Dear Officer Bylsma,

In an effort to convey my sincere appreciation for the Jamie Padron Scholarship award, I'd like to let you know how I'll be putting this generous gift to use.

In the Fall of 2018 I will be heading to Texas Tech University to pursue a degree in the discipline of Mechanical Engineering. My hope is to wrap up my Master's degree within five years so I can enter the workforce and begin giving back to others and my community who have helped shape me throughout my childhood. As I reflect on this gift, I can't help but to think, it too will have an exponential impact in how I view future opportunities due to those who have sacrificed so much like Jamie Padron.

I fully realize that this scholarship award rests on the backs of hard working individuals and companies who recognize the need to invest in a future they may never see, but please know that I will strive to honor their personal sacrifices with hard work and discipline in my studies. The Blue Knights, along with the San

Angelo Area Foundation have blessed me beyond my expectations and my words of gratitude seem inadequate. Thank you all from the bottom of my heart and please know that I too will invest in the future of others when it's my turn.

Thank you and God Bless those who have paid the ultimate sacrifice. Respectfully,

Zane Huebner
